A Touchstone Energy® Cooperative

Member participation sets us apart

COOPERATIVES AREN'T LIKE other businesses. We're not focused on making a profit; instead, we exist to serve you and to meet community needs.

Today, we are working together for the common good. At Fairfield Electric, we're working to keep your power reliable, affordable and safe.

We are also working to attract and retain industries that bring jobs to our communities and members. We're looking out for you in the halls of government in both Columbia and Washington, D.C. We're offering programs and services that help members manage their energy use for comfort, convenience and savings. And we're supporting our communities.

Another part of what makes cooperatives unique is our democratic approach to leadership. Fairfield Electric Cooperative is led by a board of trustees elected by our members. That's you!

Please take the time to participate in this year's Annual Meeting. We've made it easy by offering drive-thru registration and voting in four different locations in our service area during the week of May 11-15.

You should have received an official Annual Meeting notice in the mail in April. Please take a moment to review the details and make plans to drop by one of our voting locations this month. We look forward to seeing you.

BRUCE G. BACON
 Chief Executive Officer

Fairfield Magnet student wins book challenge

STELLA GRACE BURROUGHS' HERO has always been her uncle, who worked as a lineman for another utility company. So, it was only natural that she would dedicate her book, *The Day That Power Took a Vacation*, to him.

In March, the book, written and illustrated by the fourth-grade student at Fairfield Magnet School for Math and Science, won the South Carolina Children's Book Challenge, individual division. Her book was chosen among nearly 200 statewide submissions. She was guided in her project by her school's visual arts teacher, Kimberlea Daly.

The Day That Power Took a Vacation tells the story of what happened when the power went out after Hurricane Helene and how the line workers—the superheroes—restored power.

"Stella Grace's idea for a power hero was amazing, but her real hero was her late uncle," says Daly. "Fairfield Electric sent us all kinds of good material, so we got to learn about what a lineman does, what he wears and all the cool equipment that they use. Then she had a totally different viewpoint of what her uncle did."

At Fairfield Magnet School's quarterly awards day ceremony on Friday, March 27, representatives from Fairfield Electric Cooperative and The Electric Cooperatives of South Carolina surprised Burroughs with the announcement and presentation of prizes, including \$500 for Burroughs and \$250 for Daly.
